EDUCATION

Sri Eshwar College of Engineering	B.E (CSE)	CGPA:7.4 (up to 4 th sem)	2023-2027
S.G.N.H.S.School	HSC	69%	2022-2023
P.C.M.H.S.School	SSLC	PASS	2020-2021

INTERNSHIP

MERN STACK-BETTER TOMORROW [GithubLink](#) [Certificate](#) 2025

Developed a full-stack Expense Tracker Application using the MERN stack with secure user authentication. Implemented features to add, edit, categorize, and track daily expenses with real-time updates. Integrated MongoDB for reliable data storage and insightful expense history management.

Tech tack: React, Node.js, Express.js, MongoDB.

PROJECTS

E-Commerce: [GithubLink](#) 2025

Designed and developed a full-stack E-Commerce platform with intuitive product browsing, rich listings, and real-time pricing. Implemented secure authentication, cart and wishlist features, seamless checkout, order tracking, and payment integration. Built a robust admin dashboard to manage products, inventory, orders, and users with scalable and high-performance architecture.

Technologies: React, Node.js, Express.js, MongoDB.

Mushroom Classification: [GithubLink](#) 2025

Built an AI/ML-based Mushroom Classification System to determine whether mushrooms are edible or poisonous using trained machine learning models. Performed data preprocessing, feature engineering, model training, and evaluation to achieve accurate classification results. Deployed the model with a user-friendly interface enabling users to input mushroom attributes and receive instant predictions.

Technologies: Python, Machine Learning, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Flask

Turf Booking: [GithubLink](#) 2025

Built a full-stack Turf Booking Web Application enabling users to view turfs, check real-time slot availability, and book slots through an intuitive interface. Implemented secure user authentication, booking management, and a payment-ready workflow for seamless transactions. Developed an admin panel to manage turfs, time slots, bookings, and user activity efficiently using the MERN stack.

Technologies: React, Node.js, Express.js, MongoDB.

CERTIFICATIONS

Master in Data Structures and Algorithm Using C and C++	Udemy	2024
Learn Java Beginner to Master	Udemy	2024
AWS Academy Graduate	AWS Academy Cloud Foundations	2025
Introduction to MERN Stack	Simplilearn	2025
Introduction to IoT	Simplilearn	2025

PROGRAMMING ACHIEVEMENTS

Participated in the **DSCE Hackathon** conducted at Dhanalakshmi Srinivasan College of Engineering.

Shortlisted as a top-performing team at the **Innovators' Conclave**, BITS Pilani.

LeetCode: |Completed-150 Problems

Codechef: |Completed- 100 Problems

SkillRack: |Completed-600+Problems

TECHNICAL SKILLS

Languages: Java (Intermediate) | C (intermediate) | C++ (intermediate)

Web Technologies: HTML | CSS | JavaScript

Frameworks& Libraries: ReactJS | NodeJS | ExpressJS | Flutter

Databases: MongoDB | MySQL

Technical Knowledge: Data Structures | OOPS | DBMS
